Diggamen Civil Contracting

Email: admin@diggamen.com.au

Nominated for Telstra Business Award 2018.

Summary

Diggamen Civil Contracting is a 100% Northern Territory owned and operated civil construction company, offering a range of services to the Territory and are second to none when it comes to quality, knowledge, efficiency and

supporting local businesses and community growth. Diggamen have successfully completed multiple major and minor projects for the Northern Territory Government and numerous other Territory clientele.

Description

Nominated for Telstra Business Award 2018.

Diggamen Civil Contracting is a 100% Northern Territory owned and operated civil construction company, with three locations; Darwin, Alice Springs and Tennant Creek.

Diggamen specialise in the field of civil construction and detailed excavations. We strive to provide civil contracting and construction services to the NT Government sectors, Local Government, developers, contractors and individuals.

We contract for work as the Principal Contractor, accepting full responsibility for the works and any sub-contractors. When required we are engaged as a sub-contractor to reliable Principal Contractors. We also provide machinery hourly hire services to various contractors. We are proud of our fleet of machinery and vehicles, continually updating our resources and equipment to be ahead of our competitors and have the opportunity to offer our clients the latest products in the industry to fulfil their requirements.

We are renowned for providing a quality service to our clients, suppliers and sub-contractors, priding ourselves on our personal touch and developing long-term relationships to ensure the best outcomes for our clients and our

company. Our staff is like family, giving a commitment to quality and taking responsibility for their tasks. Diggamen's Directors work in the field alongside the team, guiding and encouraging them to deliver the very best.

We have a workforce of 30 local employees, including 6 indigenous, an accomplished team with a broad and extensive range of construction knowledge and experience. We train on the job and offer further training and development via apprenticeships or certificates to enable our employees to further their skills and knowledge within Civil Construction, Machinery Operation and Traffic Control. Diggamen is committed to Indigenous employment, offering training and development opportunities with each project carried out, enhancing their individual capabilities working toward continuous employment.

We continue to grow our business and are looking forward to the opportunity to branch out and work with the Australian Defence Force and its contractors and establish an ongoing working relationship to better the Northern Territory and its prospects for the future.

Industries Served

- > Construction & Engineering

Major Clients
