Norship is a privately owned company that has provided marine, repair, maintenance and refit solutions across Northern Australia and South Pacific Islands. Norship also provides engineering, manufacturing and remanufacturing solutions for the maritime, mining, transport, defence and agricultural sectors.

## Summary

Norship is a diversified business servicing the Manufacturing, Engineering and Maritime Industries with an uncompromising focus on safety, quality, security, environment and customer satisfaction.

Norship is a locally owned Australian company with a 70 year heritage across the 3 Industries. This heritage in engineering, shipbuilding, ship refit, repair maintenance and marine infrastructure, facilitated the innovative development

of Norship renowned for its services today. Norship enhance its service delivery capability with comprehensive workshops specializing in the manufacture, overhaul and repair of components and heavy machinery. Supported by a team of Architects and Engineers providing design, drafting and certification services, Norship has evolved servicing Australian defence, paramilitary and law enforcement agencies, mining industries across Northern Australia, PNG and the Pacific Island Nations.

## Description

Norship is a privately owned company that has provided marine, repair, maintenance and refit solutions across Northern Australia and South Pacific Islands. Norship also provides engineering, manufacturing and remanufacturing solutions for the maritime, mining, transport, defence and agricultural sectors.

Norship conducts maintenance, repair and refit activities for:

- Border Force, Australian Customs Vessels, Cape Class Patrol Boats and small vessels
- Commercial Fishing and Trawl vessels
