Primage Group is an Electrical, Instrumentation & Telecommunication (EIT) solution specialist and Subsea, Umbilical, Riser & Flowline (SURF) EPCIC contractors. Our subsidiaries include Primage Engineering, Primage Engineering Services and Primage Subsea. Primage Engineering offers design and supply of EIT equipment. We manage an average sized warehouse of stock EIT equipment and consumables whilst maintaining an advantageous relationship with manufacturers benefitting commercially and on lead time. We hold distributorship for a range of reputable EIT equipment brands and are agents for industry reputed cable manufacturers. Primage Engineering Services offers installation and commissioning of EIT systems from cable laying to complicated terminations and system integrations. We have a team of field engineers, specialist and technicians to cater for EIT system field support and troubleshooting. Primage Subsea provides EPCIC services for the SURF packages of brownfield and greenfield proj

Summary

We offer a wide range of EIT and SURF services for the oil & gas, utilities and renewables sector offering solutions for onshore, offshore and subsea applications. We represent and partner with some of the worlds leading OEM's and are

able to benefit on the commercial and delivery aspects. Our experience will help customers streamline work scope execution thereby saving cost, time whilst maintaining high quality standards.

Description

Topside cables, topside EIT accessories, field support, telecommunication hardware, telecommunication system engineering, electrical engineering, power management systems, risers, flowlines, subsea cables (power, FOC, composite), umbilical's, subsea accessories, subsea system

engineering, mid water arch,

Experience in project management including liaisons with IVB/Classification.

Industries Served

- > Clean Energy
- > Oil, Gas & Energy

Major Clients

- > Petronas
- > Repsol
- > Talisman
- > Shell
- > Husky - CNOOC Indonesia
- > McDermott
- > Technip
- > Vestigo Petroleum
- > Murphy Oil
- > Toyo That
- > PTTEP Thailand
- > Larsen & Toubro
- > Foster Wheeler

Products & Services

- > Electrical, instrumentation and telecom systems EPCIC
- > Subsea, umbilical, riser and flowline systems EPCIC
- > Stock of EIT equipment and consumables
- > Strong relationship with OEMs - benefit commercially and on lead time

Facilities and Equipment

- > Two offices in Malaysia
- > One office in Singapore
- > Three warehouses
- > All required tools for services offered
- > Engineering softwares

Previous Significant Projects

2019

Bokor Phase 3 Redevelopment Project
\$3,000,000

Client: Petronas - Malaysia

Supply of 3 nos. composite subsea cable come with topside junction boxes and cable accessories - EPCIC

2018

Anjung Facilities Project
\$3,000,000

Client: Petronas - Malaysia

Supply of composite subsea cable come with topside junction boxes and cable accessories - EPCIC

2019

Supply of Subsea Cable and Associated Accessories
\$3,000,000

Client: Vestigo Petroleum - Malaysia

Subsea power cable come with topside junction boxes, buoyancy modules, ballast modules, bend stiffener, concrete mattresses - EPCIC

2017

Madura Straits BD Field Development Project
\$2,500,000

Client: Husky CNOOC - Indonesia

Supply of composite subsea cable come with topside junction boxes and cable accessories - EPCIC
