COMMUNITY PARTNERSHIPS

We believe that the key to any successful project is community engagement.

Summary

Rusca Bros Services is 100% Indigenous owned and has developed its capability in the civil, mining and construction sectors over a period of more than 40 years.

Delivering services in the Civil, Mining, Construction, Labour Hire (HRL Links), Training (Sid Rusca Training Academy) and Waste Management (Rusca Environmental Services).

Our employees have vast industry experience and all share a focus on delivering successful projects for our clients.

Our projects often take us to regional and remote sites, which can naturally present some unique challenges. We understand this and have developed specialist processes and teams dedicated to undertaking regional and remote projects efficiently and effectively.

What makes Rusca Bros Services different from our competitors is that our clients have direct access to our leadership teams. Our lines of communication are always open so we can be responsive, informed and ready to get the job done.

Description

COMMUNITY PARTNERSHIPS

We believe that the key to any successful project is community engagement.

We understand that our commercial activity is important to the economic and social development of the regions, so we strongly believe in using local subcontractors and labour where possible.

We also financially support a number of sporting and charity groups through sponsorship and commodity donations.

Our commitment to communities doesn't end upon project completion, either. We actively seek ongoing opportunities for local subcontractors we've engaged and trained in the regions.

When we move on from each project site, our goal is to leave behind a positive imprint on every community we partner with.

CAPABILITIES

Rusca Bros Services is 100% Indigenous owned and has developed its capability in the Civil, Mining and construction sectors over a period of more than 40 years.

We deliver these capabilities with the highest standards of health and safety, environmental management and quality assurance.

Our employees have a vast industry experience and all share a focus on delivering successful projects for our clients.

CIVIL CONSTRUCTION

project management
mine access and haul roads
earthworks
bridgeworks

culverts
tailing dams
quarry operation
airfields
draining and pipeworks
concrete works
headworks
excavation

MINING

project management
load and haul
processing facilities
mining camps

mining: open cut, mesa and strand
drill and blast
water treatment and storage

Waste Management

general waste
recycling
hazardous waste
listed/controlled waste
off shore support
remediation
waste transport
environmental consulting
